

Loose Leaf Elementary Statistics: A Step by Step Approach with Formula Card and Connect hosted by ALEKS Access Card

Connect Math Hosted by ALEKS is an online assignment and assessment platform that helps students connect to their coursework and prepares them to succeed. An integrated ALEKS Initial Assessment helps you understand what your students know and are ready to learn next. This system is built by educators for educators. Content is produced and vetted by our market leading authors to ensure a single voice with your textbook. Built in a highly intuitive platform, course creation is simplified, saving you time while vastly improving student performance. Assessment and Learning in Knowledge Spaces is a web-based, artificially intelligent assessment and learning system. ALEKS uses adaptive questioning to quickly and accurately determine exactly what a student knows and doesn't know in a course. ALEKS then instructs the student on the topics she is most ready to learn. As a student works through a course, ALEKS periodically reassesses the student to ensure that topics learned are also retained. ALEKS courses are very complete in their topic coverage and ALEKS avoids multiple-choice questions. A student who shows a high level of mastery of an ALEKS course will be successful in the actual course she is taking.
