

African Americans and the Civil War (The Civil War: a Nation Divided)

Though at first shunned when it was made clear that the Civil War was to be a white mans fight, Northern blacks sought to contribute to the war effort from the moment volunteers were called. Initially taken in as contraband, free blacks and ex-slaves eventually donned uniforms and fought in more than 400 battles to reunite the Union and free their brethren from bondage. Incurring blatant prejudice that saw black soldiers underpaid and denied officer commissions, the vast majority endured hardship and deprivation in battle after battle in an attempt to demonstrate bravery and dedication to the cause. With their willingness and ability to fight initially questioned, African Americans repeatedly proved their valor. Discover in African Americans and the Civil War how, according to President Abraham Lincoln, black soldiers made the difference between victory and defeat.
