

The Great Escape

Combining science fiction and fantasy into an amusing and eclectic mix, this collection of 19 short stories mixes the seasoned writing skills of a master writer with tales of the fantastic. From fallen angels mounting a breakout from Hell and computer game designers haunted by cyberghosts to alien coffins bombarding the solar system and Jesus brother aboard the first starship, these stories, irreverent and bizarre, are sure to amuse, bemuse, and entertain. This anthology brilliantly takes on the eerie and the weird-and does it with humor, wit, and tension.
