

Fall of Night: Morganville Vampires, Book 14

Thanks to its unique combination of human and vampire residents, Morganville, Texas, is a small college town with big-time problems. When student Claire Danvers gets the chance to experience life on the outside, she takes it. But Morganville isn't the only town with vampire trouble. Claire never thought she'd leave Morganville, but when she gets accepted into the graduate program at MIT, she can't pass up the opportunity. Saying good-bye to her friends is bittersweet, especially since things are still raw and unsettled between Claire and her boyfriend, Shane. Her new life at MIT is scary and exciting, but Morganville is never really far from Claire's mind. Enrolled in a special advanced study program with Professor Irene Anderson, a former Morganville native, Claire is able to work on her machine, which is designed to cancel the mental abilities of vampires. But when she begins testing her machine on live subjects, things quickly spiral out of control, and Claire starts to wonder whether leaving Morganville was the last mistake she'll ever make.
