

Revelation: Book One of the Calligraphy Jones Series

Imagine that you have your whole life planned: finish high school, then four years of college, and after that a comfortable life in small-town Franklin. But for Calligraphy Jones, all of this changes when she discovers that she is able to interpret signs, numbers, and people beyond their perceived meaning. Callie takes a summer job in a new magic shop in town, a job she feels uniquely qualified to land because of her lifelong interest in the supernatural. But she quickly discovers that the job at Illusions, is actually a lure by a powerful group of newcomers to the community who want to exploit her magical talents. She finds herself torn between the ordinary life of small-town Franklin and the intriguing offer to help the Benefactors stamp out some restless demons infiltrating the outskirts of town. When she discovers that the head of the group is also the father she thought was long dead, Callie finds herself caught between the forces of normal and paranormal, just like her parents were seventeen years ago.
