

Family Business: DNA Book 2

Monica Maxwell, now being in possession of the true facts about her past, is moving on with her life. She is giving serious thought to expanding her business, and her well-ordered life is back on an even keel. Elijah Stone is not used to people saying no to him and always manages to find a way to change their mind if they do. He had very definite plans on how to handle a woman he had never met until he did meet her, and then all his well-laid plans went out of the window.
