

## Jack Kirbys Fourth World Omnibus, Vol. 2

After co-creating comic book heroes including The Fantastic Four and The Hulk, legendary writer/artist Jack Kirby came to DC Comics in 1970 to write and illustrate his magnum opus: four interlocked adventure series that were known collectively as The Fourth World. Now, for the first time, DC collects these four series -- THE NEW GODS, THE FOREVER PEOPLE, MISTER MIRACLE and SUPERMANS PAL JIMMY OLSEN -- in chronological order as they originally appeared. These comics spanned galaxies, from the streets of Metropolis to the far-flung worlds of New Genesis and Apokolips, as cosmic-powered heroes and villains struggled for supremacy. In this second volume, the evil Darkseid's schemes continue to unfold while the New Gods, the Forever People, Mr. Miracle and other heroes battle his many minions.
