

## John Lasseter (Contemporary Film Directors)

Celebrated as Pixars Chief Creative Officer, John Lasseter is a revolutionary figure in animation history and one of todays most important filmmakers. Lasseter films from Luxo Jr. to Toy Story and Cars 2 highlighted his gift for creating emotionally engaging characters. At the same time, they helped launch computer animation as a viable commercial medium and serve as blueprints for the genres still-expanding commercial and artistic development. Richard Neupert explores Lasseters signature aesthetic and storytelling strategies and details how he became the architect of Pixars studio style. Neupert contends that Lasseters accomplishments emerged from a unique blend of technical skill and artistic vision, as well as a passion for working with collaborators. In addition, Neupert traces the directors career arc from the time Lasseter joined Pixar in 1984. As Neupert shows, Lasseters ability to keep a foot in both animation and CGI allowed him to thrive in an unconventional corporate culture that valued creative interaction between colleagues. The ideas that emerged built an animation studio that updated and refined classical Hollywood storytelling practices--and changed commercial animation forever.
