

## Love Visions (Classics)

Spanning Chaucer's working life, these four poems build on the medieval convention of love visions - poems inspired by dreams, woven into rich allegories about the rituals and emotions of courtly love. In *The Book of the Duchess*, the most traditional of the four, the dreamer meets a widower who has loved and lost the perfect lady, and *The House of Fame* describes a dream journey in which the poet meets with classical divinities. Witty, lively and playful, *The Parliament of Birds* details an encounter with the birds of the world in the Garden of Nature as they seek to meet their mates, while *The Legend of Good Women* sees Chaucer being censured by the God of Love, and seeking to make amends, for writing poems that depict unfaithful women. Together, the four create a marvellously witty, lively and humane self-portrait of the poet.
