

## The Palaver: A Novella (Milestone Book 4)

Milestone is a haunted place, but it was not always so hostile or so desolate. Once upon a time it thrived, even as a war tore apart the world beyond its borders. Until a pale stranger came sauntering up out of the mine armed with nothing more than a barbers razor and a warning for the townspeople. And if they refuse to listen, there will be no one left alive to tell the tale.
