

Reading Peter Handke: Frustration, Fascination, Fantasy

This work began as an attempt to explain the difficult nature of Handkes prose. Why do readers either enthusiastically praise or passionately condemn his work? Why do his novels evoke the unique sensation of simultaneous fascination and frustration? Those who find Handkes prose to be pretentious, self-absorbed, or overly sentimental fail to recognize the authors playful and ironic tone. His style is highly self-reflexive: he aims to defy the temporality inherent in narrative, minimize psychological content, and blur genre distinctions. This work is particularly useful to anyone interested in modern/postmodern literary theory and theories of narrative form. The intended audience also includes those who seek an explanation as to Handkes controversial role both as public figure and author. In-depth interpretations of *In einer dunklen Nacht ging ich aus meinem stillen Haus*, and *Die Lehre der Saint Victoire* are an integral part of this work. Other popular Handke novels are discussed in brief.
