

L.V.E.: Legion of Virulent Extraterrestrials (#1)

Have you ever wanted to believe in a lie? College student, Mary, cant believe the stories going on at her schoolthat a plane crash in the mountains is really a massive alien cover up. Its absurd, so naturally she wants to debunk it. Except she finds more of the absurd: A Naked Man running around the forest fire, a shady group speaking in whispers, and a device--a transmitter of some kind--that nobody knows the significance of..until an actual alien shows up asking for it. Now, Mary, with her snobby sister Jane, is on the run, going who-knows-where with a barbaric alien who kills for sport. Maybe there is hope for them, maybe, but do they really know what theyre getting themselves into? Because the aliens not saying, and the sisters, even now, want to know as little as possible...because sometimes its better to believe in the lie.
