

Twelve Light II - Comrades of Desperation

Part two in the Twelve Light saga. In Book one, Twelve Light - Some Specimens Are Best Left Alone: Fifteen year old farm boy Sam Jackson, a UFO abductee, pirates the gigantic flying saucer that has sucked him, his brother Steven and their gal pal Zale into the night sky on a cold Januarys eve. Owing to the accidental metallurgy of a titanium alloy plate under his scalp, installed across the top of his skull as the result of a head injury when he was a toddler, Sam is uniquely immune to the mental wave that space aliens use to subdue human prey. And so! High in the Earths stratosphere, Sam does what any all American farm boy would do. He beats hell out of the spacemen and takes their fancy ride. Now, in book two of the Twelve Light saga: With Command Logic and certain death only one step behind, racing through space and time to escape the fate a starships piracy has brought down upon them all -- two daring farm boys, a precocious city gal, an eccentric old lady, a retired milk cow and their unlikely space alien allies have become . . . Comrades of Desperation. The greatest part of the Twelve Light adventure awaits. You are only one click and a short download away from the exciting conclusion to the Twelve Light saga. Dont hold back! Hit that button and join our swashbuckling heroes as they fight their way to Siluria, a billion and a half years into the future, and back again.
