

Dinosaurs and Prehistoric Life

3.5 million years of evolution in stunning visual detail. Spanning the history of life on Earth from its first emergence over 3.5 million years ago to the rise of the human race, *Dinosaurs and Prehistoric Life* tells the incredible story of evolution in all its forms. Travelling through millions of years, this comprehensive reference ebook charts the appearance, development, and extinction of lifeforms throughout geological time, with hundreds of examples profiled and re-created in vivid illustrated detail. The ever-popular and always intriguing dinosaurs feature extensively, but *Dinosaurs and Prehistoric Life* provides a complete overview of living things, also covering plants, invertebrates, fishes, amphibians, reptiles, birds, and mammals. Designed exclusively for the Kindle Fire, *Dinosaurs and Prehistoric Life* brings this subject to life like never before with:

- Over 250 interactive and illustrated pages-
- A comprehensive introduction to life on Earth-
- Introductions to each period through geological time, including continental and climate changes-
- Over 200 illustrated profiles, including almost 100 dinosaurs-
- Hundreds of unique images and illustrations with close up details-
- Dozens of specially photographed skeletons and fossils-
- Timelines tracking the development of life on earth-
- Overviews of key groups of animals and plants

The combination of stunning visuals and captivating, authoritative text inside *Dinosaurs and Prehistoric Life* makes it a fascinating and revealing encyclopedia that will appeal to the whole family.
