

State-of-the-Art Orthodontics: Self-Ligating Appliances, Miniscrews and Second Molars Extraction, 1e

Authored by experts of international renown, *State-of-the-Art Orthodontics: Self-Ligating Appliances, Mini-Screws and Second Molars Extraction* is lavishly illustrated throughout and explains the latest techniques in the management of Class II and III malocclusions including severe over-crowding. Places particular emphasis on the role of the Clarity Self-Ligating appliance an esthetic device that also demonstrates excellent sliding biomechanics and allows use of low force levels and reduced treatment times. Authored by experts of international renown Lavish use of colour photography and artwork helps explain new concepts clearly Demonstrates the effective use of the Clarity Self-Ligating appliance, a device which contains all of the essential features of SmartClip but which also demonstrates greater patient acceptability and hence improvement in compliance Explains treatment options that show more predictable outcomes, good performance sliding biomechanics, the application of low force levels and reduced treatment times Ideal for orthodontists worldwide whether qualified or in training
