

## Stepping Stone & Love Machine: Two Short Novels from Crosstown to Oblivion

Stepping Stone and Love Machine are but two of six fragments in the Crosstown to Oblivion short novels in which Walter Mosley entertainingly explores lifes cosmic questions. From lifes meaning to the nature of good and evil, these tales take us on speculative journeys beyond the reality we have come to know. In each tale, someone in our world today is given insight into these long pondered mysteries. But how would the world really receive the answers? Stepping Stone: Truman Pope has spent his whole life watching the world go by. A gentle, unassuming soul, he has worked in the mailroom of a large corporation for decades without making waves, until the day he spots a mysterious woman in yellow. A woman nobody else can see. Soon Trumans quiet life begins to turn upside-down. Love Machine: The brainchild of an eccentric, possibly deranged scientist, the Love Machine can merge individual psyches and memories into a collective Co-Mind. Tricked into joining the Co-Mind, as part of a master plan to take over the world, Lois Kim struggles to adapt to her new reality and abilities. Is there any way back to the life that was stolen from her, or is she destined to lead humanity into a strange new era??
