

Steven Universe Vol. 1

Whats to Love: The Steven Universe animated series captured our hearts almost immediately. Weve been fans of Rebecca Sugars from her work on Adventure Time for years and as the first lady to run her own show at Cartoon Network, we couldnt wait to collaborate with her. Fans of Adventure Time and Sailor Moon are gonna dig this series!What It Is: Steven Universe is just your normal everyday Beach City citizen-who is anything but normal! Join Steven as he learns how to save the day with the help of Garnet, Amethyst, and Pearl, discovering what it means to be a great friend and an even better neighbor. Written by Jeremy Sorese (Adventure Time) and illustrated by Coleman Engle (Regular Show), Steven Universe explores the magical world of the hit Cartoon Network show with all-new adventures sure to make your gem shine. Collects issues #1-4....perfectly captures what makes the show effective and compelling. The emotional beats are present and the art direction is delightful. - Comicosity
