

Out of the Shadows

SCIENCE VERSUS...FAITH?Dr. Wade Cameron was a man of science-it came with the territory. He knew there was nothing between him and Patrice McKenzie short of chemistry. Never mind that the petite auburn-haired beauty had a smile that would put the suns glow to shame, and a heart big enough to match. But as a man of science he also knew that family history counted...and his clans sordid past left too much to chance. The twice-voted Bachelor of the Year was determined to continue his no-commitment policy...until Patrice began making this nonbeliever think that maybe hed taken a wrong turn. Maybe there was something permanent in Gods plan for him?
