

The Anatomy of Curiosity (Fiction - Young Adult)

The follow-up to the acclaimed title *The Curiosities: A Collection of Stories* by Maggie Stiefvater, Tessa Gratton, and Brenna Yovanoff. In an unassuming corner of Brooklyn, a young woman learns to be ladylike, to love context, and to speak her mind from a very curious sort of tutor. In a faraway land convulsed by war, a young soldier hears the deserts curious hum as he disarms bombs with the person he doesn't know how to love. In a place so shriveled by drought that any drowning is a curiosity, a young writer tries again and again to tread water beneath the surface of a vast and unusual sea. Three new stories complete with commentary on the creative process from three acclaimed young adult authors working at the height of their powers. Curious?
