

Tidal Shift: A Novel

Forty-six-year-old divorcee Christine is finally happy ? or so she thinks. She has an amazing boyfriend but she also has a drama-filled family she fears might scare him off. And when Christine spies her dependable Aunt Inge in the company of a man who is most certainly not her husband, it sends the family drama into overdrive ? and delivers an unexpected wake-up call to Christine. Because after witnessing the newfound passion with which sixtysomething Inge is tackling each day, Christine becomes aware of the mounting frustrations in her supposedly fabulous life. Sick and tired of playing it safe, Christine finally decides the time has come to make some big changes. But will her quest for a new lease of life ruin her hard-won happiness? Or will she discover a joy she never imagined possible?
