

Late Bloomer: A Novel

The award-winning, widely praised author of *Disappearing Ingenue* is at the top of her form in this witty, wickedly funny novel about a romance writer whose real life begins to outpace the wildest flights of her imagination. After one failed marriage and numerous dating disasters, Prudence True Parker teaches *Advanced Personal Journey* at a community college in Arizona. Prudence's own personal journey has led to a mountain of debts, and she is beginning to feel desperate. Salvation comes at the local library, where she meets Digby Deeds (alias Mildred Crawley), the author of the *Savage Passion* romance series. Nearing the end of his life, Digby is looking for someone to keep *Savage Passion* alive and offers Prudence the final forty plots of the wildly popular series. Moved more by financial desperation than literary aspiration, she reluctantly accepts the bequest. Just after taking on the project, Prudence's friendly local psychic foresees the arrival of a romantic stranger in her life. The prediction comes true with startling speed: At a Native American charity event in Oklahoma, Prudence is swept off her feet by a mysterious young Comanche artist, Ray Chasing Hawk. A month later, Ray shows up on her doorstep. Fired by the irresistible desires their affair awakens, Prudence begins writing her first Native American romance. Real life gives her plenty of inspiration for her fictional plot and her home fills to overflowing with visitors, including Native American activists, medicine men, and wolves. In a hilarious, totally satisfying conclusion, the pieces of her life fall into place at the annual Romance Writers Convention in Houston, Texas. Smartly written and laugh-out-loud funny, *Late Bloomer* is a high-spirited tale of romance, captivity, and savage love women of all ages will relish. www.doubleday.com
