

Love Junkie

Love Junkie is the story of Rachel Resnick's dangerous addiction to sex and love. An addiction that has cost her in horrible ways throughout the course of her life - from the time she rear-ended a family van on the freeway because she was obsessively speed-dialing her lover's phone, to when she blew the deadline on her first major newspaper assignment. Love Junkie charts Rachel Resnick's harrowing emotional journey from addiction to intimacy, from despair to hope, and the men - the worst kind of men - who accompanied her on it. It is a groundbreaking and compulsively readable memoir that cracks open one of the more elusive and pervasive addictions of our time. Written with raw humor and unflinching honesty, it is the story of coming to terms with your past in order to be able to map out a different kind of future.
