

## The Lion of St. Mark (Annotated)

Francis Hammond is an English teenage boy of energy and pluck who lives in Venice with his father. One night when he is out rowing through the canals, he spots two young ladies being kidnapped. Pulling his boat up alongside theirs, he manages to rescue the sisters from their attackers. The danger is not over, however, as the villain is determined to succeed. But who is this villain and does he have spies watching the girls every move? Follow Francis through his many adventures in Venice and later when he sails the Mediterranean Sea and fights with the Venetian military against Genoa. Of all the chapters of history there are few more interesting or wonderful than that which tells the story of the rise and progress of Venice. Built upon a few sandy islands in a shallow lagoon, and originally founded by fugitives from the mainland, Venice became one of the greatest and most respected powers of Europe. Henty writes his story in a time not of the triumphs of Venice, but of her hardest struggle for existence when she defended herself against the coalition of Hungary, Padua, and Genoa, for never at any time were the virtues of Venice, her steadfastness, her patriotism, and her willingness to make all sacrifice for her independence more brilliantly shown.
