

Wheres the Dinosaur?

I spy over 90 dinosaurs in this beautiful book featuring tactile, embossed pages; and a great counting game to play! In this fun-filled follow-up to the popular *Where's the Dragon?*, Grandfather, George, and Meg the dog are on the hunt again, searching for dinosaurs on a remote island. Oblivious grandpa manages to miss them all—but eagle-eyed kids will enjoy finding these beloved creatures and feeling their bumpy, spiny scales and knobby horns on every spread.
